

Bias & Fairness

- **This revolution is built by mostly young, college educated, white men living in Northern California.**
- **ML models are a direct reflection of their training data.**
- **AI propagates unconscious bias.**

A father and his son are in a car accident.

The father dies. The son is rushed to the ER.

The attending surgeon looks at the boy and says,

“I can't operate on this boy. He's my son!”

How can this be?

Bias & Fairness

- **This revolution is built by mostly young, college educated, white men living in Northern California.**
- **ML models are a direct reflection of their training data.**
- **AI propagates unconscious bias.**

A father and his son are in a car accident.
The father dies. The son is rushed to the ER.
The attending surgeon looks at the boy and says,
“I can't operate on this boy. He's my son!”
How can this be?

Misinformation & Disinformation

- **It's easier than ever to lie.**
- **Deepfakes are a particularly alarming development.**
- **This poses serious threats to democracy and is increasingly being weaponized.**
- **Education is critically important.**
- **Can we use AI to counter these threats?**
- **Example: fullfact.org**
- **Why are efforts like Full Fact so underfunded?**
