

Here's my list...

- **Privacy & Surveillance**
- **Bias & Fairness**
- **Misinformation & Disinformation**
- **Military use of AI**
- **Economic Impact**
- **Environmental Impact**
- **Copyright Protection**

Privacy & Surveillance

- **“If you’re not paying for it, you’re the product”.**
- **Your AI interactions are being used just like your web searches.**
- **How many times have you read the terms & conditions?**
- **Facial recognition is widely used in the UK without your consent.**
- **Legislators and companies are working on regulation but progress is much slower than technological advances.**
- **New privacy threats are emerging every day.**
- **IMO, companies cannot be trusted to self-govern.**
