## Misinformation & Disinformation

- It's easier than ever to lie.
- Deepfakes are a particularly alarming development.
- This poses serious threats to democracy and is increasingly being weaponized.
- Education is critically important.
- Can we use AI to counter these threats?
- Example: <u>fullfact.org</u>
- Why are efforts like Full Fact so underfunded?

## Military Use of Al

- Al is being used to process battlefield data, target individuals, and make real time decisions.
- Al is beginning to be used in autonomous weapons.
- Companies cannot be trusted to self-govern.
- Example: Google's Project Nimbus
- Somehow doesn't contradict Google's AI Principles
